# REPORT

## Manufacturer

Mpact Corrugated

## Regulation

Article 5 of the European Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR) stipulates that per- and polyfluoroalkyl substances (PFAS) resulting from substances in **food-contact** packaging or packaging components shall not be not be placed on the European market if present in concentrations equal to or exceeding:

- 25 ppb for any individual non-polymeric PFAS;
- 250 ppb for the sum of targeted non-polymeric PFAS;
- 50 ppm for total PFAS, including polymeric PFAS.

## Sample information

Sample type: Various corrugated cartons sampled from various Mpact Corrugated manufacturing sites. Sample types include direct food-contact packaging, secondary packaging, printed cartons, and unprinted sheets, made from virgin and/or recycled fiber mixed papers.

Date tested: April 2022 – August 2024

Ref nr: 44341667T

## Results

| Test method | PFAS Tier | PFAS results | Compliance with Article 5 of PPWR |
|---|---|---|---|
| Solid phase extraction; UPLC–HRMS/MS (Aligns with EPA Method1633) | Targeted PFAS<br>Sum of Targeted PFAS | < 16 ppb<br>< 150 ppb | Products comply |
